EverFocus Launches the latest H.265 Outdoor IP Camera

Taipei, Taiwan (Mar 18, 2017) EverFocus Electronics Corporation, a leading security surveillance system manufacturer, today releases newest Value IP Series 3-Megapixel High Resolution T-WDR Network Camera – EBN368 / EDN368M / EZN368 / EZN368M.

Features of the 3 Megapixel IP Cameras include:

H.265 Compression

Dual-streaming from H.265 / H.264

EBN368 / EDN368M / EZN368 / EZN368M is a 3-megapixel H.265 Outdoor IP camera, providing 30fps at 2048 x 1536 viewing resolution with more details in the image. The camera supports dual streams from H.265 or H.264 video compression formats. In same resolution, the H.265 provides higher compression efficiency and lower bitrate comparing with H.264 codec, allowing more efficient bandwidth and data storage usage.

Low Lux

Sony CMOS Image Sensor

Adopted with a Sony CMOS image sensor, the IP camera features high sensitivity characteristics that enable the IP camera to perform clear color images even in

low-light environment, and offers superior WDR effects.

2.8-12mm Motorized Zoom Lens

With a motorized 3.3x optical zoom lens, EDN368M / EZN368M can provide the desired field of view with superior video quality in precise focus.

Weather proof IP66-rated

Equipped with a weather-proof (IP66) housing, the IP camera meets a wide variety of needs for outdoor surveillance. The housing of EDN368M is also IK10 vandal-proof rated.

120dB T-WDR

The 120dB True Wide Dynamic Range (WDR) function enables the IP camera to provide clear images even under back light circumstances where intensity of illumination can vary excessively. Other functions like AGC, AWB and 3DNR are also featured.

Supports Motion Detection & Email Notification

The brand-new web interface with the Quick Setup Panel design allows you to configure commonly used functions include image parameters, stream settings or zoom in / out controls, etc. on the live view window. Except the Quick Setup Panel, event functions such as Motion Detection, Tamper Detection and Event Recording / Snapshot are also supported.

Supports Micro SD card

The two-way audio function allows the IP camera to deliver and record up to 3MP complex stream. For EDN368M / EZN368 / EZN368M, the on-board Micro SD card slot for event recording or snapshot further increases the storage capacity. Except 12VDC power supply, the IP camera also supports Power over Ethernet (IEEE 802.3af), which eliminates the need for power cables and thus reduce the installation costs.

EverFocus Genie XMS CMS

The IP camera conforms to ONVIF for compatibility with other network video devices. You can also use EverFocus Mobile applications to remotely view the live views of the cameras through your iOS or android handheld devices; or use EverFocus CMS to remotely manage multiple IP devices connected on the network.

About EverFocus Electronics Corporation

EverFocus Electronics Corporation (TWSE: 5484) is a leading integrated security solution provider. Our lineup includes CMS, IP, eZ. HD, mobile surveillance solutions, access control systems, as well as surveillance and access control peripherals. EverFocus has global offices in Taiwan, the U.S., Germany, China, and Japan.
